

## FOR IMMEDIATE RELEASE

### Space Age Electronics Now Offers Inspect Point to Streamline Fire Protection Services

Sterling, MA (May 6, 2025)

[Space Age Electronics](#) is proud to announce its new partnership with [Inspect Point](#), a leading fire protection software platform. Through this partnership, Space Age Electronics now offers Inspect Point's powerful suite of tools, helping fire protection professionals modernize operations, improve efficiency, and maintain full code compliance across every job site.

With over 25 years of industry fire protection experience, the Inspect Point team brings industry-leading inspection, proposal generation, and compliance solutions directly into the hands of fire safety teams. From scheduling and inspections to deficiencies, proposals, work orders, and invoicing, the mobile-friendly platform provides an end-to-end digital workflow that saves time, reduces costs, and increases visibility across projects.

#### Key Features and Benefits:

- **Focused on Fire Protection:** Developed by fire protection experts, Inspect Point comes pre-loaded with support for key compliance standards like NFPA, ULC, AES, Joint Commission, DNV, and hundreds of regional forms.
- **Ensure Code Compliance:** Space Age customers can complete digital inspections and compliance reporting through seamless integration with The Compliance Engine and IROL, simplifying how deficiencies are submitted to Authorities Having Jurisdiction (AHJs) and reducing inspection delays.
- **Capture and Document Deficiencies:** With Space Age's expanded solution offering, teams can securely synchronize and store deficiency images for reference and reports leading to faster resolution and improved audit readiness.
- **Save Time & Money:** Increase the number of inspections performed by eliminating paper-based processes, avoiding duplicate data entry, conducting inspections directly in the field using an iPhone or iPad, and utilizing efficiency-creating features, like Quick and Bulk Inspect to accelerate large-scale or repetitive inspections – ideal for properties with multiple similar assets.
- **Generate Service Proposals in the Field:** Field technicians working with Space Age Electronics can now deliver polished, branded proposals on-site and accelerate service approvals while improving client experience.

- **Centralized Data Access:** Teams can now empower faster decisions and better interdepartmental collaboration by logging in from anywhere with centralized access to schedule inspections, generate reports, and manage building information.
- **Never Miss an Inspection:** With automated reminders and technician reporting as part of Space Age's new digital offering, teams can keep inspection schedules on track and enhance regulatory reliability while reducing costly oversights.

"This collaboration aligns perfectly with our mission to deliver innovative solutions to the fire protection industry," said Kyle Jarvenpaa, VP of Business Development at Space Age Electronics. "By offering Inspect Point, we continue to empower our customers with tools to now not only simplify inspections but also to stay ahead of compliance requirements with confidence. With our rooted history manufacturing code compliant products this partnership made a lot of sense to bring the next era of software innovation to our customer base in the same manner we've done for the last 62 years."
